Subject - Electrification of Pumping plant of Davangere Water Works at Harihar

- O -

In forwarding herewith in original the entire file of correspondence received from the President, Town Municipal Council, Davangere, (vide copy of his letter NO H C 87/38-39 dated 26th April 1939 enclosed) on the subject noted above, I have the honor to state as follows -

The Municipal President, Davangere states that consequent on receipt of an estimate amounting to Rs 24,975/- from the Sanitary Engineer, Bureau of Sanitary Engineering Bangalore, for electrifying the pumping plant of Davangere Water works at Harihar the matter was placed before the Municipal Council for consideration at its meeting held on 19th April 1939 when it was resolved as follows

> "Resolved that the estimate be sanctioned and Government be requested to grant half the estimated cost as kindly promised by the Dewan Sahib during his recent visit to the Town (vide resolution copy enclosed for kind reference)

At present, the pumping plant, is worked by means of the Diesel oil Engin The Sanitary Engineer, Bureau of Sanitary Engineering has fully discussed the technical details for the electrification of the pumping plant at

Harihar and questions connected with the utility of the duplicate arrangements of plants from the point of view of electric shut downs and future requirement of an important and growing commercial centre like the Davangere Town The Chief Electrical Engineer in Mysore(in his letter NO 23137 dated 8/10th April 1939(copy enclosed) addressed to the Sanitary Engineer) states that he is agreeable to the proposal

With regard to the question of financing the scheme, the Municipal President states that the local Municipal Council has resolved to approach Government for the grant of half the estimated cost of the scheme, as promised by the Dewan during his recent visit to the Davangere Town

With regard to the balance cost of the scheme he(Municipal President) states that it will be met ~~mf~~ out of the Municipal Funds, and adds that necessary provision will be made in the next year's Budget(for 1939-40) towards this purpose It is also stated that the guarantee given to the Electrical Department has taken into reckoning the provision of electric power to the Davangere Water Supply plant

In view of the heavy commitments of this municipality, the President requests me to place before Government for their sympathetic consideration the request of the Davangere Municipal Council for granting the cost towards the said scheme

I may state in this connection that in the welcome address that was presented by the Municipal Council on 2nd April 1939 to the Dewan(on the occasion of his visit to the place for the opening ceremony of the Tuberculosis Hospital) the subject of electrification

(next page please

of Davangere Water Works at Harihar was referred to, in the following terms -

> "Further we request you, Sir, to kindly consider our representation in the matter of benign Government contributing half the total cost for the installation of electric motors, pumps, etc , in our Water Works at Harihar"

I have looked into this question and discussed it with the President, Davangere Municipality The Scheme proposed is really necessary and is fully explained in the accompanying report of the Sanitary Engineer Further the Chief Electrical Engineer, has also agreed to the proposals of the Sanitary Engineer As regards the cost, I may state that the Davangere Municipality has spent heavy sums on water supply, drainage, tarring of roads and other improvement of the town and has heavy commitments It is not therefore in a position to meet the entire cost of the present scheme and is in need of a liberal grant from Government for the purpose as prayed for

I therefore request that sanction of Government may kindly be accorded to the following -

1) Administrative Sanction to the estimate(under reference) amounting to Rs 24,975/-

2) Grant of a sum of Rs 12,488/- from Government (out of the Water supply grant to be distributed for the year 1939-40) to enable the Municipality to undertake this scheme

3) Permission to the Municipality to meet the other half of the estimated cost(due provision being made for the purpose in the Budget estimates of the Municipality for the year 1939-40).

I have the honor to be,
Sir,
Your most obedient servant,

Subject - Electrification of Pumping Plant o Davangere Water works Harihar

---

In submitting herewith duly countersigned an estimate for Rs 24,975/- being the probable cost of Electrifying Harihar PumpingStation of Davangere Water Works at Harihar I have the honor to state that the Municipal Council at their meeting held on 18th May 1938 resolved to replace the existing Oil Engine by Electric Motors The technical details for electrification of the pumping plant at Harihar and questions connected with the - utility of the duplicate arrangements of plants from the point of view of electtric shut downs and present and future requirements of the Town have been fully considered by the Sanitary Engineer in consultation with the Chief Electrical Engineer

An estimate prepared by the Sanitary Engineer for Rs 24 975/- was received with his letter NO 1060 dated 14-9-1938 and the opinion of the Chief Electrical Engineer was sought for with regard to the Electrical portion of the work The Chief - Electrical Engineer has also agreed to the proposals of the Sanitary Engineer(Vide copy of his letter NO 23137 dated 8/10-4-39 to this Sanitary Engineer enclosed for kind reference)

This estimate was placed before the Municipal Council at their meeting held on 19-4-39 when they resolved that it may be countersigned and the Government be requested to grant half the cost of the estimate as kindly promised by the Dewan Saheb during his recent visit to the Davangere Town

Necessary provision will be made in the next years budget for half the portion of the cost of this work and if found urgent, the Sanitary Engineer will be requested to push through the work when administrative sanction is obtained The guarantee given to the Electrical Department includes the provision of the consumption of Electric power for the water supply plant

P T O

The Dewan Saheb was pleased to visit the work at Harihar during his recent visit to Davangere on 2-4-1939 when this subject was explained by the Sanitary Engineer The councillors represented to the Dewan and requested that half the cost of scheme may be borne by the Government The Dewan Saheb was pleased to assure them that the question of granting half the estimated cost will be favourably considered by Government In view of the heavy commitments of the municipality I request you kindly to obtain sanction of government for the estimate and to strongly recommend for the grant of half of the cost of the estimate as resolved by the Municipal Council
